

Connecting communities and bus rapid transit projects with Euro flair.

Europe is known for high passenger transport usage. Holding a bus or rail pass is a badge of honor as Europeans connect not just between cities but entire countries.

Our Euro Series transit shelters give a nod to our European neighbors and their modern and fashionable sensibilities. A combination of sleek and stylish yet strong and sturdy, our Euro bus shelters showcase designs with durability. The result? A highly functional eye-catching structure that your community will warmly welcome into its public streetscape. And, you can trust that our experienced engineers will ensure all of your bus shelter design specifications are incorporated into the finished product, whether a need for solar-power illumination, digital or static information/advertising displays, custom color matching, or special weather resistant materials.

Cutting-edge design combined with unsurpassed craftsmanship, that's what you can expect from our innovative Euro Series bus shelters.

KEY FEATURES:

Distinctive profile with bronze, Lexan and color-match roof options.

Solar lighting and low draw LED illumination options. Available with or without advertising media kiosk.

Bus stop roof design allows for rain gutter and optional housing for security lighting.

Illuminated kiosks can be powered with traditional 110V illumination or green solar technology. Digital advertising, real-time information, USB ports, and other technology options are also available.

Standard rear wall or cold-weather protective design. Custom herringbone or standard perforated metal walls. Unique custom glass treatments, perfect for public art or city branding.

Transit shelters available in lengths from 8 to 24 feet and widths from 4 to 6 feet.

Made in the USA and Buy America compliant.

ON THE STREETS ACROSS AMERICA

(size and design examples)

LOUISVILLE, KY

Euro shelters have large side walls perfect for showcasing passenger information or revenue-generating advertising.

This 10-ft shelter features a media display kiosk, integrated gutter with rain diverter, 3/8-in clear tempered glass walls, and Mesa platform bench with recycled slats, some with seat delineators.

CAMBRIDGE, MA

Sporting clear walls, passenger visibility is high while weather protection remains a priority.

22-ft Euro dome roof shelter features bronze Lexan roof panels supported by custom posts with escutcheons, 3/8-in clear glass at the rear, end, and front walls, and perforated metal bench. Shown with LED solar lighting.

BRITISH COLUMBIA, CN

Modern Euro shelters can be customized to include three-sided weather protection.

This 13-ft Euro shelter includes a wide roof, integrated gutter with drain and leaf catcher, clear acrylic roof panels, back-to-back LED illuminated advertising kiosk, 3/8-in glass walls, and an 88-in extruded aluminum framed recycle slat bench with seat delineators.

SAN MATEO, CA

Spun escutcheon shoe covers add a finishing touch to custom-color coated Euro shelters.

This Euro 17-ft shelter features bronze Lexan roof panels, back-to-back solar illuminated advertising kiosk, solar LED roof lighting, branded glass walls, integrated map case, and 6-ft perforated metal bench with seat delineators.

DAVENPORT, IA

Euro Shelter series can be tailored to your project, your budget, and your community.

22-ft Euro shelter features bronze Lexan roof panels, solar-powered LED illuminated advertising kiosk, custom agency-branded glass and partial 3/8" clear glass front wind screen.

HAWTHORNE, CA

Euro Series bus shelters offer lengths up to 24-ft and widths from 4 to 6 feet.

This Euro dome roof, 24-ft shelter includes herringbone rear and end walls, integrated end wall map case, spun escutcheon shoe covers, and 6-ft steel strap benches with back rests.

RALEIGH, NC

Euro shelters offers many wall options for weather protection while showcasing agency/city branding.

This 10-ft shelter includes all-aluminum construction with canti-levered roof and half-end 3/8-in clear tempered glass walls, UV-protected polycarbonate panels, and dusk-to-dawn UL-listed solar power.

MIAMI, FL

Branded shelters in various configurations with minimal unique parts customize the transit riding experience.

This 13-ft Euro max roof shelter features white Lexan roof panels with 3/8-in glass walls, aluminum support posts, city logo on rear glass, and 8-ft perforated metal bench with seat delineators.

These styles are representative of product options within this series. Scan the QR code or visit www.tolarmfg.com for additional ideas, options and specifications.

LANSING, MI

Modern cantilever designed shelter delivers the latest in passenger real-time technology with a 32-inch ePaper display.

Tolar's 10-ft advertising shelter includes a custom all-aluminum euro extrusion, dome roof with 1/4-in bronze-tinted twin-wall, flat advertising kiosk, and adjustable leveling shoes for surface mounting on concrete pads.
